

4.2 The value of water to me and my community

There are four quadrants provided below- one for each value of water. For each one, write an example of how that value of water is evident for you or people in your community and explain your example.

Economic	Cultural
<i>E.g. water for crops, factories, or household bills</i>	<i>E.g. water used in ceremonies or traditions</i>
Spiritual	Aesthetic
<i>E.g. places of calm, reflection, or significance</i>	<i>E.g. beaches, waterfalls, rivers</i>
