

10.2 Cyclone Impact Investigation

Select and research ONE of the following effects of tropical cyclones. Create an informative poster that explains how tropical cyclones cause this effect and what impact it has on people, environments and places.

- Storm surge
- River flooding
- Heavy rainfall
- Strong winds
- Landslides
- Damage to infrastructure
- Agricultural losses

Research template

Summarise your research in the table below, then use this information to create your poster. You may create your poster on Canva, Google slides or another teacher approved option.

What effect are you researching:	
Describe the effect	
Explain how cyclones cause this effect (<i>e.g. how does wind or rainfall contribute, where is it most likely to occur</i>)	
Explain the social, environmental and economic impacts of this effect (<i>consider short and long term</i>)	
Case study examples (refer to any specific examples of when this effect has impacted on people and places in the world)	

Poster requirements:

- ☐ A clear title
- ☐ A labelled diagram or image
- ☐ An explanation of causes
- ☐ An explanation of effects
- ☐ At least 3 key facts
- ☐ Correct geographical terminology
- ☐ Clear layout and neat presentation
